

# 4 Benefits of Live-Streaming Classes for Parents with Spot TV

## **VIRTUAL VIEWING ROOM**

Eliminate distractions and maintain a safe number of customers in your facility with fewer people peering through doors to observe class in person.

## **MAINTAIN SAFETY AND SECURITY**

Regardless of the activity you teach, there are safety measures and industry best practices that must be met. Spot TV allows your program to be transparent while giving parents the peace of mind that their child is in good hands.

## **STAY CONNECTED WITH PARENTS**

Every family is unique. Virtual viewing gives loved ones the opportunity to watch their student in class from the parking lot, across the country or around the world.

## **STAFF TRAINING TOOL**

Use real-life scenarios and real teaching environments as meaningful training sessions for new staff and staff enrichment.
